

Say Hello to your new Orthopaedic Surgery App at Barts Health!

Care4Today® Education Application: Patient Instructions

Welcome! You have been given the opportunity to use our new orthopaedic surgery application, called Care4Today® Education to support you during your operation. Here at Barts Health we are bringing all of our specialist staff and facilities together to give you the very best care and support before, during and after your joint replacement.

This App can be downloaded by following these 4 easy steps.

1. Search for Care4Today® Education in either the Google Play store, or App Store® for iPhone
2. Once you locate the application please download this on your device
3. Once you download the application, you can then enter the hospital specific code depending on the joint replacement surgery you are having:
 - Hip Replacement Code: **bartship**
4. In the App, you will find learning materials including articles and videos, frequently asked questions, checklists and a more section which has hospital information, more information about the app, how to contact the support desk and general policies.

We hope you find this application useful, please let us know if you have any feedback or questions by contacting us through the help desk within the application, or at your next appointment.

Thanks, Barts Health NHS Trust
